If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Serial Number: 10/662594
Appl. Filed: 9/15/2003
Applicants: Arnold
Appl. Title: Use of 4-androstene-3, 6, 17 trione...
Examiner:

ADDENDUM TO PETITION TO MAKE SPECIAL

Assistant Commissioner of Patents
Washington, D.C. 20231

Applicant hereby respectfully amends their Petition to Make Special to add that infringement exists in the marketplace, and

Pursuant to Manual of Patent Examination Procedure Section 708.02, Applicant further states that:

- A) That there is an infringing device or product actually on the market or method in use;
- (B) That a rigid comparison of the alleged infringing device, product, or method with the claims of the application has been made, and that, in his or her opinion, some of the claims are unquestionably infringed; and
- (C) That he or she has made or caused to be made a careful and thorough search of the prior art or has a good knowledge of the pertinent prior art.

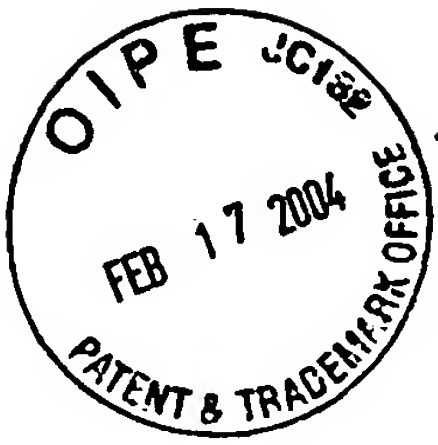

Applicant provides and attaches as Exhibits, references found on other products on the market utilizing 4-androstene-3, 6, 17 trione, including AROMADEx by VPX, 3,6,17 Androstenetrione by VITA PLUS, 1-Test Stack by SCI-FIT, and bulk product from a Chinese supplier.

Attached is an Affidavit in support of the petition.

Very respectfully submitted,

A handwritten signature in black ink, appearing to read 'Michael Berns', followed by a long, horizontal, slightly wavy line that extends to the right.

Michael Berns 38,379

UNITED STATES DEPARTMENT OF COMMERCE
PATENT AND TRADEMARK OFFICE

Applicant: Arnold
Application: Use of 4 androstene-3, 6, 17 trione...
Serial No. 10/662594

VERIFIED STATEMENT

Pursuant to 37 CFR 1.102, and MPEP 708.02, applicant petitions to make the application special based on actual infringement, manufacturer available, and search made. In support of the accompanying Petition to Make Special, applicant declares as follows:

1. I am the attorney for the inventor, Patrick Arnold, and the assignee, Proviant Technologies, Inc.
2. I am the attorney of record for subject application.
3. I have caused to be made a careful and thorough search of the prior art and have a good knowledge of the pertinent prior art.
6. I believe that all of the claims of the application are allowable.
7. Proviant Technologies, Inc. has sufficient presently available capital to market and produce the product.
8. Proviant Technologies, Inc. has sufficient facilities to produce larger quantities of the product.
9. Proviant Technologies, Inc. can make available sufficient capital and facilities to increase production if a patent is granted.
10. Proviant Technologies, Inc. will not increase present manufacture unless certain that the patent will be granted and infringers can be stopped.
11. Proviant Technologies, Inc. has obligated itself to manufacture the product to protect the investment of capital and facilities.
12. I have made a brief Internet search for infringing products and submit, as Exhibits, copies of websites selling products using the claimed method.
13. Proviant Technologies, Inc. sells the claimed product under their ERGO PHARM® label as 6-OXO™.

14. VPX is selling their infringing product as OX6.
15. VITA PLUS indicates on their website that the product is "the same active ingredient found in 6-OXO from Ergopharm".
16. The SCI-FIT 1-Test Stack product is described as including "6-OXO".
17. There is no non-infringing usage for the product, other than as described in the specification and claims of the present application.
18. I further declare that all statements made herein of my own knowledge are true and that all statements made upon information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application and any patent issuing therefrom.

The undersigned, being hereby warned that wilful false statements and the like so made are punishable by fine or imprisonment, or both, and that such wilful false statements may jeopardize the validity of the application or any resulting registration, declares that he/she believes the applicant to be the owner of the invention sought to be patented, and that all statements made of his/her own knowledge are true and all statements made on information and belief are believed to be true.

Respectfully submitted,

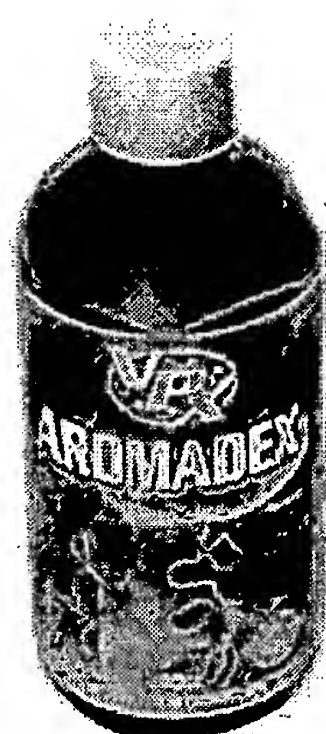

Michael Berns

Attorney for Proviant Technologies, Inc.

VPX AROMADEX, 240CC

Product Description

NEW Aromadex for reducing Estrogen Production!

Managing estrogen and increasing testosterone is the scientific key to maintaining a hard, muscular look. Aromadex contains a synergistic blend of two highly potent aromatase inhibitors complexed together in a liposomal pharmaceutical delivery matrix for prolonged management of estrogen. Lipoject Technologies boasts a particle size of less than two micrograms and is the only true liposomal matrix in the industry.

Lipoject Liposomes that encase microgram-sized particles are absorbed at close to 100% and stay active in the blood for up to 20 hours. Biochemically and pharmaceutically speaking, absorption and duration of action is known as pharmacokinetics. The action of inhibitors binding to the aromatase enzyme renders it inactive. However, conventional capsule and pill forms are only marginally effective because of their limited duration of action in the body. This is exactly why every anabolic steroid is chemically altered to increase it's duration of action in the blood.

Use of Aromadex greatly aids in reducing estrogen production over an extended period of time while simultaneously stimulating the release of natural testosterone. Managing estrogen and increasing testosterone is the scientific key to maintaining a hard, muscular look. Aromadex is the key for natural fitness enthusiasts and also is an essential in between cycle matrix for any prosteroid and real gear using athlete!

Warning

Pro-hormones are not for use by children, teenagers, pregnant or nursing women. Do not use this product if you have breast, uterine, ovarian or prostate

problems. If you are under medical supervision, consult with your physician before taking product. Too much testosterone before being fully grown could cause premature closure of the growth plates which control the growth of the body's long bones. This could stunt growth. Do not take pro-hormones until you have reached your full growth potential.

Instructions

Use 8cc(ml) total everyday including non-training days. With the enclosed measuring device, dispense 4cc(ml) of Aromadex into mouth and swallow solution. Repeat procedure upon awakening and 15 minutes prior to retiring. Do not exceed 6 weeks of continuous use without a 4 week off cycle from use.

Vita Plus 3,16,17 AndrosteneTrione 60 caps 100mg

SUGGESTED RETAIL	Our Price	Qty	
\$49.99	\$29.99	1	<input type="button" value="Buy"/>

Detailed Description

3,6,17 AndrosteneTRIONE is the same active ingredient found in 6-OXO from Ergopharm. This ingredient has been shown to increase free testosterone levels and act as an estrogen blocker. Effective when taken with prohormones or when coming off an intense cycle of prohormone products. Dosages range between 300-600mg per day.

1-Test Stack (60 capsules)

- *Incredibly Powerful Prohormone!*
- *Not for Beginners!*

Ok, so for all you bodybuilders out there, here is Sci-Fit's ultimate andro stack: 1-Test.

This is most likely Sci-Fit's last prohormone stack before the government restrictions on prohormones. One of the most powerful, intense stacks ever unleashed. This stack is potentially an anabolic powerhouse further enhanced with estrogen-inhibiting compounds.

Check out the ingredients below, and we think you'll agree with us that this stack is ready to absolutely take you to the next bodybuilding level!

Supplement Facts

Serving Size: 1 Capsule

Servings Per Container:

60 Capsules Size: 60

Amount Per Serving:

1-T Ether: 100mg

1,4-Androstadiene-3, 17-Dione: 100mg

5-Alpha-Androstane-3,17 Beta Diol: 100mg

4-Androstenediol: 100mg

3,6,17-Androstetriol: 100mg

Recommended Use

As an adult dietary supplement, take one capsule one to two times daily. It is recommended to cycle the product for a maximum of 8-12 weeks then discontinue use for an equal amount of time.

Warning

Not for use by females or anyone under the age of 18. Do not use if pregnant or nursing. Consult a physician prior to using this product if you have, or have a family history of prostate cancer, prostate enlargement, heart disease, low "good" cholesterol (HDL), or if you are using any other dietary supplement, prescription drug, or over-the-counter drug. Do not exceed serving recommendations. Exceeding serving recommendations may cause serious, adverse health effects. Possible side effects include acne, hair loss, hair growth on the face (in women), aggressiveness, irritability, and increased levels of estrogen. Discontinue use and call a physician immediately if you experience rapid heartbeat, dizziness, blurred vision, or similar symptoms. Keep out of reach of children.

Athletes, consult your sanctioning organization prior to using. This product may be banned by some athletic associations.

Sci Fit

1-Test Stack

60 Cap

INCREDIBLE!!

The Newest and Most Impressive All-Inclusive Stack

SciFit's 1-Test Stack is most likely the last prohormone release prior to government restrictions. Since it may be ecstatic to provide the most powerful, intense stack a stack is potentially an anabolic powerhouse further enhanced by Estrogen inhibiting compounds. Suggested Use: As a supplement, take one capsule one to two times daily.

to cycle the product for a maximum of 8-12 weeks then discontinue use for a period of time.

100mg 1-T Ether 100mg Mastabolon (maxteron precursor) 100mg Equibol (precursor) 100mg 4-diol 100mg 6-OXO (anti estrogen)

1 cap per serving

There is nothing this strong or this complex in one pill on the market

If you were to buy all of these products 60 caps 100mg per bottle separately they would be at least double maybe even triple the price of what you pay for one stack.

Warning: Not for use by females or anyone under the age of 18. Do not use if you are nursing. Consult a physician prior to using this product if you have, or have had, prostate cancer, prostate enlargement, heart disease, low "good" cholesterol, or are using any other dietary supplement, prescription drug, or over-the-counter medication. Exceeding serving recommendations may cause adverse health effects. Possible side effects include acne, hair loss, hair growth (in women), aggressiveness, irritability, and increased levels of estrogen. Discontinue use and call a physician immediately if you experience rapid heartbeat, dizziness, or similar symptoms. Keep out of reach of children.

4-Hydroxy Testosterone	
7alpha-Hydroxy DHEA	
17alpha-Hydroxy Progesterone acetate	
7-keto DHEA	
7-keto DHEA acetate	
Medroxy Progesterone Acetate	
Melengestrol Acetate	
Mestanolone	17beta-hydroxy-17a androstan-3-one
Mesterolone	17beta-hydroxy-1-a androstan-3-one
Mestranol	17alpha-ethynylestr
Methandrostenolone	
Methenolone	17beta-hydroxy-1-m 1-en-3-one
Methandienone	17beta-hydroxy-17a 1,4-dien-3-one
Mifepristone	
6a-Methylprednisolone	11-beta,17-alpha,21 methylpregna-1,4-di
6a-Methylhydrocortisone	11-beta,17-alpha,21 methylpregna-4-dier
Methyl Testosterone	
Nandrolone	19-Nor-testosterone
Nandrolone Decanoate	
Nandrolone Phenylpropionate	
19-nor-4-androstenediol	19-nor-4-androstene
19-nor-4-androstenediol THP ether	
19-nor-4-androstenediol methyl carbonate	
19-nor-4-androstenediol ethyl carbonate	
19-nor-4-androstenediol propyl	

carbonate	
19-nor-4-androstenedione	19-nor-4-androstene
19-nor-5(10)-androstenedione	
Norgestimate	D(-)-17a-Ethiny-17l estr-4-en-3-one 3-o:
Norethisterone	
Norethisterone acetate	
Oxymetholone	17beta-hydroxy-2-h 17alpha-methyl-5-al
Oxandrolone	
Quinestriol	(17alpha)-3-(cyclop norpregna-1,3,5(10)
Potassium Canrenoate	
Prasterone Sodium Sulfate	
Progenolone	
Progesterone	
Stanolone	17beta-hydroxy-5alp
Stanozolol	17alpha-methyl-5alp pyrazol-17-beta-ol
Testosterone	
Testosterone Enanthate	
Testosterone Propionate	
Testosterone Cypionate	
Testosterone Undecanoate	
1-Testosterone	17beta-Hydroxy-5alp one; 5alpha-androst-1-en
1-Testosterone THP ether	
1-Testosterone methyl carbonate	
1-Testosterone ethyl carbonate	
1-Testosterone propyl carbonate	
1-Testosterone Decanoate	
1-Testosterone Undecanoate	
17a-Methyl-1-Testosterone	
Tibolone	
Trenbolone	
Trenbolone Acetate
